

BIOKOTE - EF125

BIOKOTE-EF125 is a ready-to-use form release agent that should be applied to clean forms free of dirt and debris. Stir before use. Prior to coating plywood forms, apply one or two heavy brush coats to edges for waterproofing protection. Apply in a thin uniform film with a sprayer, brush, or roller. No special application equipment is necessary; however we do recommend a spray applicator. Runs or puddles need to be brushed out or wiped up. Refer to technical data sheet for further product info and application.

Safety Instructions

Always use precaution when handling chemical products. We recommend using rubber gloves, safety glasses and apply this product in a well ventilated area.
